Inspired Facilities Support for Pendle Borough Council and Cycle Sport Pendle

Please accept this letter as Lancashire Sport Partnership and the Lancashire Cycle Steering Groups support of Pendle Borough Council and Cycle Sport Pendle's application to the Inspired Facilities Fund.

Through the Lancashire Cycle Steering Groups joint action plan we are working towards a vision of:

'Lancashire will be a premier place to cycle for residents and visitors. This will be created through effective partnership working and efficient use of available resources to implement a programme embracing opportunities'.

The proposed Swinden cycling circuit in Pendle will provide the area with a fantastic facility which will enhance the cycling offer in Lancashire. Cycling in Pendle really is growing at the moment thanks to Olympic heroes such as Steven Burke and through the Cycle Sportive 'Ride with Brad' that attracted thousands of cyclists to the area.

We believe with the support of the Inspired Facilities fund the development will support young people and adults in their local community to be inspired to reach their full potential and enjoy cycling.

Yours sincerely

A handwritten signature in black ink, appearing to read "Mark Stephenson", with a long horizontal line extending to the right.

Mark Stephenson
