

Re: Letter of Support

Pendle Leisure Trust Healthy Lifestyle & Sports Development team have been working with the cycling forum to develop cycling activities in the Pendle area over the past few years and is working closely with the cycle team to develop Adaptive cycling for All.

The proposed development of the cycle track and Hub would be an excellent extension and move forward for the adaptive cycling project that is run by Pendle Leisure Trust.

The current provision for adaptive cycling is done on a shared facility basis and can at times cause conflict with the different types of users. So to have a purpose built facility that would cater for all types and needs of the general public and cycling athletes would be a major step forward in promoting cycling as a safe and enjoyable activity for the wider community as well as the competitive cyclists.

We would fully support the work of the development team in their bid for the development of the cycling Hub and look forward to the opportunity to integrate all of the cycling work we currently do, as this will show participant clear pathways for development and improvement and create a better social inclusion for our adaptive cycling participants.

Yours sincerely

Clive Escreet
