Head: Mr S Wilson BA(Hons) NPQH

Pendle Vale College is in full support of the Steven Burke Sports Hub. Our new cycling initiative provides many opportunities for us to use the facility and develop the skills of our pupils in many different ways. We aim to deliver Bikeability qualifications as well as various coaching sessions to all year groups. The location of the facility will dramatically assist us with our goals as a range of risk assessed cycle paths already provides us with a route to the proposed venue. A new enrichment programme starting September 2012 will benefit from regular use of the facility providing a base in which we can develop as a new cycling organisation. Our longterm plans include the development of cycling within feeder primary schools and the cycle track will provide a safe and effective environment in which to progress children in the sport. We have the bikes and equipment available for immediate use and look forward to the development of the facility.

Your Faithfully

Adam Blakeley
(PVC Cycling Co-ordinator)
